PROFESSIONAL SUMMARY

A PMP-certified professional currently pursuing a Master of Applied Data Science at the University of Canterbury, with experience in Python automation, Power BI dashboard development. With a track record of delivering 30% reductions in manual workload through scripting and process automation across large-scale international projects, the goal is now to apply those analytical capabilities within NZ data science and analytics teams. Skilled at translating complex operational datasets into clear, actionable insights - and at working effectively across cross-functional teams to make those insights count.

KEY SKILLS

CORE DATA SCIENCE SKILLS	
► Python & VBA Automation	► Data Analysis & Visualisation
► MySQL / SQL Query Design	► Power BI Dashboard Development
► Machine Learning Fundamentals	► Statistical Analysis & Modelling
► Process Optimisation & Automation	► Technical Reporting & Documentation
TRANSFERABLE & PROFESSIONAL SKILLS	
› Project Management (PMP)	› SLA & KPI Performance Tracking
› Team Leadership & Mentoring	› Stakeholder & Client Relations
› ITIL Service Management	› Change & Risk Management
› Network Operations Management	› Linux / RedHat Administration

PROFESSIONAL EXPERIENCE

Virtual Internship Watercare (via Talent Solutions) • New Zealand	Jun 2026 – Jul 2026
Completed a 3-week remote internship with Watercare, a water utility, addressing a real-world business challenge as part of a project team	
- Conducted research and analysis to support strategic recommendations for the organization - Produced a structured report incorporating diagrams, decision frameworks, and academically cited research to support stakeholder decision-making - Strengthened professional skills in research, problem-solving, stakeholder engagement, and cross-functional communication - Applied Microsoft Word, Excel, and PowerPoint to manage tasks and deliver project outcomes	
Resource Manager Nokia • India	Aug 2023 – Feb 2026
Directed people and performance operations for a 35-engineer team delivering managed services to Frontier Communications (US), one of Nokia's largest North American accounts.	
- Translated SLA and KPI data into executive-ready Power BI dashboards, cutting reporting cycle time by 25% through consolidated data pipelines spanning multiple monitoring tools. - Drove IT security compliance through structured training, achieving 100% audit completion across 4 consecutive cycles with zero security incidents. - Facilitated recruitment and onboarding frameworks that cut average engineer ramp-up time by 3 weeks, contributing to a zero-attrition quarter in 2024.	
Configuration Management Lead Nokia • India	Aug 2019 – Aug 2023
Led configuration management for Frontier Communications' CS core network with a 35-member team across change execution, quality assurance, and technical documentation.	
- Spearheaded a Python and Excel VBA automation programme eliminating 30% of repetitive manual tasks, freeing engineering capacity for higher-complexity work. - Established SOPs, runbooks, and change logs that cut shift-handover knowledge gaps by 40% and reduced configuration-related incidents by 18%.	

- Delivered all projects within scope, budget, and quality parameters over 4 years with zero major escalations; upskilled 12 junior engineers to Tier-2 independence within 6 months.

Fault Management Lead

Oct 2014 – Oct 2019

Nokia • India

Managed fault resolution for Vodafone India's CS core network, leading a 10-engineer team as primary technical interface between Nokia and the client.

- Resolved 95% of P1/P2 incidents within SLA windows; a structured problem management programme identified 8 recurring fault patterns, cutting repeat incidents by 22% in 12 months.
- Streamlined IBM and Accenture vendor handover protocols, reducing mean-time-to-resolution by 45 minutes per major incident.

Fault Management Engineer

Oct 2009 – Sep 2014

Nokia • India

Provided first and second-line maintenance for Vodafone India's CS core, focused on proactive monitoring, root-cause analysis, and automation.

- Built Python and shell scripts for daily health-check automation saving 2 hours per shift; conducted 50+ audits with findings fed directly into the team knowledge base.
- Recognised with the Automation Initiative Award in 2013 and 2017 for scripting work that saved 30% in manual engineering effort across the team.

Deputy Manager – Network Operations

Oct 2008 – Oct 2009

Alcatel Lucent Managed Solutions • India

- Improved ASR and CSR KPIs through targeted trunk augmentation and signalling link coordination, supporting weekly capacity planning reports for regional engineers.

Deputy Manager – Switch Operations

Aug 2006 – Sep 2008

Reliance Communications • India

- Maintained 99.8% network availability over 2 years through preventive maintenance and configuration backups; supported 3 major network expansion phases via RAN trunk group configuration.

AWARDS & ACHIEVEMENTS

★ Women Talent Programme Nokia, 2025	Selected to contribute to Nokia's 95% waste circularity goal by 2030
★ Site Champion Nokia, 2024	Recognised for outstanding project delivery on Frontier Communications account
★ Multiple Awards Nokia, 2023–24	Project Renewal, Go-To-Market execution, measurable client satisfaction gains
★ Excellence in Delivery Nokia, 2022	Sustained KPI improvements and elevated client satisfaction scores
★ Problem Management Nokia, 2021	Reduced recurring outages via structured root-cause analysis and prevention
★ Automation Initiative Nokia, 2013 & 2017	Scripting leadership saving 30% manual engineering effort - awarded twice

EDUCATION

Master of Applied Data Science

Feb 2026 – Feb 2027 (in progress)

University of Canterbury, Christchurch, New Zealand

Bachelor of Engineering – Electronics & Communications

Jul 2002 – Apr 2006

Jaya Engineering College, Anna University, India • First Class with Distinction

CERTIFICATIONS

PMP – Project Management Institute Feb 2022 (Valid to Feb 2028)	ITIL V3 Foundation Dec 2013
Management Development Programme – IIT Madras Nov 2024	AI Dashboards Using MS Power BI – Skill Nation Mar 2024
PowerPoint Using AI / ChatGPT – Skill Nation Oct 2024	PTE – Pearson Test of English Oct 2025 (Valid to Oct 2027)
RedHat Linux Training Oct 2015
